SKILL LEVELS

REST API / integrations 5/5

Logs / defect analysis 5/5

SQL / data 4/5

UX/UI testing 4/5

Automation 3/5

Scrum / SAFe 5/5

TECHNOLOGIES

QA and API

REST API, Postman, Swagger, JSON, Xray, Jira, YouTrack, TestLink

Backend and tools

RabbitMQ, Kibana, Jenkins, DevTools, GitLab

Databases

PostgreSQL, pgAdmin, MS SQL Server

UX / UI

Figma, UX research, usability testing, Webflow, design systems

PROFILE

QA Engineer with experience in functional, integration, E2E and UAT testing, REST API testing, data validation and backend issue analysis. I verify microservice-based systems, analyze RabbitMQ service communication and logs to identify root causes of defects, and validate the quality of changes in CI/CD processes. I combine a technical approach to quality with a UX/UI perspective, allowing me to assess a product both in terms of functional correctness and user experience.

SPECIALIZATION

API

REST API testing, integrations and data validation.

LOGS

Analysis of defects, events and service-to-service communication.

UX

Usability, interface consistency and user experience.

SAFE

Work in Scrum / SAFe and collaboration with business teams.

PROFESSIONAL EXPERIENCE

QA Engineer

01.2025 - present

Trans.eu

- Building team trust and strengthening project ownership, while being supported by the organization in my development toward test automation.
- Testing REST API in Postman: JSON validation, HTTP status codes, token authorization, edge cases and data consistency.
- Analyzing backend logs in Kibana and diagnosing defects affecting service stability.
- Monitoring service-to-service communication through RabbitMQ and analyzing backend integrations.
- Creating and maintaining test cases, scenarios and technical documentation in Xray and Confluence.
- Executing E2E, functional and UAT tests for frontend, backend and mobile applications.
- Working with CI/CD pipelines in Jenkins and analyzing automated test results.
- Developing test automation using Playwright and TypeScript.
- Supporting product quality from the UX/UI and end-user experience perspective.

Manual Tester

12.2022 - 08.2024

Necto

- Designing test strategies for functional, regression, integration and acceptance testing.
- Testing web and mobile applications and analyzing REST API completeness.
- Reporting defects in Jira and YouTrack, including root cause analysis and proposed solutions.
- Data validation and SQL query analysis in PostgreSQL and MS SQL Server.
- Analyzing frontend issues in DevTools: console, cookies, sessions, DOM and responsiveness.
- UX/UI usability testing and recommending improvements for user experience.
- Supporting business and operational users and analyzing tickets in ERP and Intense systems.

Junior Project Implementation Specialist

10.2022 - 11.2022

Trigonum

- Creating and updating project documentation compliant with EU requirements (ERDF, ESF), with focus on quality and formal compliance.
- Managing financial settlements, monitoring project costs and analyzing large data sets.
- Creating MS Excel spreadsheets with advanced formulas, logical functions and pivot tables.

HR Specialist

11.2021 - 10.2022

Trigonum

- Managing full recruitment processes: job ads, application screening, interviews and candidate feedback.
- Organizing onboarding, preparing workstations and supporting new employee adaptation.
- Creating and optimizing tools for working time analysis and project efficiency tracking.
- Supervising medical examinations, occupational health and safety training, and labor law compliance.
- Maintaining HR documentation, PPK registers, HR reporting and operating the Platnik system.
- Coordinating internship agreements in the "Kariera Jutra" program: documentation, communication with institutions and process supervision.

Personal Data Protection Representative

04.2021 - 10.2022

Trigonum

- Developing and implementing solutions compliant with GDPR and data protection policies.
- Conducting compliance audits and preparing Data Protection Impact Assessments (DPIA).
- Creating and updating records of processing activities and classifying information assets.
- Managing data protection incidents, breach registers and cooperation with management and supervisory authorities.
- Preparing and reviewing data processing agreements compliant with GDPR.

● QUALITY STANDARD

Requirements Analysis
acceptance criteria, risks, edge cases

Test Design
scenarios, regression, E2E, UAT, integrations

Defect Lifecycle
reproduction, priority, root cause, retest

Release Readiness
documentation, monitoring, product stability

● PERSONAL SKILLS

Analytical and critical thinking

Curiosity and root cause analysis

Precision and quality focus

Solving complex problems

Ownership and independence

Technical-business communication

Cross-team collaboration

● EDUCATION AND ACTIVITIES

University of Gdańsk
Master's degree, Criminology
2015-2017

University of Gdańsk
